

**Hello Everyone,**

**The route is being converted into a GPX file by Jim Bullen. Right now he is adding turn by turn info to reach the physical address of each checkpoint, the finish, and directions from Hotel Araiza (SLRC) to the border crossing.**

---

**Below is info that you need in order to open the file and load it onto your Garmin.**

Garmin BaseCamp to import the GPX file -

<https://www.garmin.com/en-US/shop/downloads/basecamp>

You will also need Garmin Express to load the map into BaseCamp - <https://www.garmin.com/en-US/software/express/>

<https://www.garmin.com/en-US/software/express/>

What model number is the Garmin? e.g. 590LM

If you have lifetime maps (LM) you should not have to pay for the map data.

If not then you will have to purchase City Navigator® North America NT for \$80 at
